Re: Southern Marin Emergency Medical Paramedic System Radio
Additions

Dear Directors,

The Southern Marin Emergency Medical Paramedic System is requesting the addition of one reserve ambulance to the fleet. The addition of this reserve ambulance will result in the addition of 4 radios (2 mobile and 2 portable) to the MERA system. The radios in the reserve ambulance will need to be fully functional at all times.

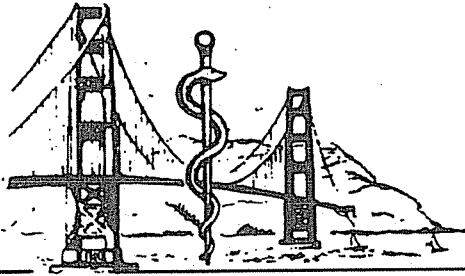

The addition of 4 radios to the MERA system is recommended since the Southern Marin Emergency Medical Paramedic System has stipulated this ambulance is for reserve purposes only, and therefore no net gain will be realized on the MERA system.

Very truly yours,

Farhad Mansourian
Director

RE: Request to add MERA radios to reserve ambulance

Dear Mr. Mansourian,

The Southern Marin Emergency Medical Paramedic System (SMEMPS) is converting one of their ambulances into a reserve unit. This unit will only be utilized when a primary ambulance is taken out of service. To achieve this goal, and provide for turn-key operation, it is necessary to install and program two mobile and two portable MERA radios.

Given that this ambulance will only operate as a reserve unit, there should be no increase in the utilization of the MERA system.

Please consider this a request to allow for the programming of these additional radios. If you have any questions, please contact me at your earliest convenience.

Yours truly,

Mike Giannini (1870)

Mike Giannini
