DATE: August 28, 2019
TO: MERA Next Gen Project Oversight Committee
FROM: Maura Griffin, Administrative Assistant for the Next Gen Project
SUBJECT: AGENDA ITEM B: Field Survey

Recommended Action: Review, discuss and accept report.

Background:

Field Survey Inspections are in progress. MERA is working with our member agencies to create a master list of mobile radios including vehicle identifier information, portable radios and chargers, mobile radio mount type, and internet and Wi-Fi capabilities and provider information for each facility. Currently 483 mobile radios have been counted and the project is estimated to be 70% complete.

Once the data from the Field Survey has been collected and assessed, a list will be sent to each agency for a final review. It is imperative to have the correct information and radio counts for MERA to update the Gen-1 System to the Next-Gen System effectively.

If there is need of special accommodation or if there are any questions on the MERA Field Survey Inspection Project, contact Maura Griffin at mera.mgriffin@gmail.com.
