

## **MERA System Operations Update**

### **MERA System Maintenance**

During APRIL the Radio Shop provided the following support:

1. Worked with Motorola to configure and test spare boards for the East and West Simulcast site controllers. The work was performed this has boosted our spare count to more than double what it was. Some spare boards were not valid spares. We are currently investigating availability from Orange County and other vendors to get additional spares.
2. Repaired Air conditioning units at Barnabe and dollar.
3. Changed Net Clocks due to intermittent alarm on primary unit.
4. Replaced batteries on 6809 spares.
5. Reviewed generator health with County garage to confirm we are in good shape. This is due to concerns of PG&E potentially shutting down power in efforts to reduce fire hazards. All generators are in good condition. Garage reports no pending concerns. Maintenance has been kept up and fuel levels will be maintained.
