Dear Board Members:

SUMMARY: On June 30, 2015, your Board approved the Next Generation Radio System Implementation Agreement between the Marin Emergency Radio Authority (MERA) and the County of Marin ("Project Implementation Agreement"). The Project Implementation Agreement provides funding to the County to implement the Next Generation project on behalf of MERA. The Agreement provides that the County must obtain prior approval from MERA's Governing Board (or its designee) to enter into a wireless communications consulting services contract.

Following MERA Governing Board approval, on January 3, 2017, your Board approved a wireless consulting services agreement with Federal Engineering, Inc. (FE) for the second phase of the Next Generation system project. The agreement with FE was for a fixed fee of \$989,250 and provides project management services to oversee the selected project vendor - Motorola Solutions. The FE contract was based on an assumed project duration of two-and-one-half years and the contract ends on July 31, 2019. Extended time to select the project vendor, conduct preliminary design, and complete CEQA has led to unanticipated delays resulting in the need for this addendum.

Public Works and MERA staff developed and negotiated the attached not-to-exceed fee contract addendum in the amount of \$144,000 for FE to continue to provide second phase implementation services. The services under this addendum provide a full-time project manager to oversee Motorola Solution's design completion, assist with CEQA document review, and assist County staff with project implementation activities. The contract term provides for these services over the next six months, which is the anticipated duration of the completion of the design following CEQA approval.

This contract addendum was recommended for County approval by the MERA Governing Board on June 26, 2019.

FISCAL IMPACT: Funding for this \$144,000 addendum exists in the MERA Next Gen Project 41PWPMERA and is part of the Project Implementation Agreement, which includes up to \$40 million in reimbursement for implementation expenses of the Next Generation Radio System Project. There are no other impacts by this action.
