DISTRICT SUMMARY

The Marin Emergency Radio Authority (the “MERA”) is a Joint Powers Authority in Marin County (the County”), formed in 1998 to plan, implement and manage a County-wide public safety and emergency radio system. This system is available to all member agencies, but its primary purpose is to support police, fire, and public safety services.

The system helps unify public safety response and ensures communication among individual agencies and departments within the County. MERA provides crucial communications for all County residents, both day-to-day and after major emergencies or natural disasters. MERA radio communications are the backbone of the 911 emergency response system. MERA provides the communication link between 911 public safety dispatch centers and public safety units in the field that respond to emergencies. The MERA radio system gives dispatch centers the ability to assign first responders within seconds of receiving a 911 call. The system of 17 base station radio and receiver sites provides regional or countywide radio communications among dispatch centers and mobile units throughout the County.

On November 4, 2014, registered voters in the County voted to approve the 20-year Measure A Special Parcel Tax (“Measure A”). The special parcel tax is levied County-wide and will be used to replace the County’s aging emergency communications system; reduce 911 response times, improve communications reliability during earthquakes, floods, fires, and other disasters; and ensure reliable communications among police, fire, and paramedic first responders throughout the County.

MERA is currently governed by a Governing Board comprised of representatives from each of the 25 member agencies, as follows:

1. SB 165: LOCAL AGENCY SPECIAL TAX AND BOND ACCOUNTABILITY ACT

Senate Bill 165, filed with the Secretary of State on September 19, 2000, enacted the Local Agency Special Tax and Bond Accountability Act (the “Act”). This Act requires that any local special tax or local bond measure subject to voter approval contain a statement indicating the specific purposes of the special tax, require that the proceeds of the special tax be applied to those purposes, require the creation of an account into which the proceeds shall be deposited, and require an annual report containing specified information concerning the use of the proceeds. The Act only applies to any local special tax measure or local bond measure adopted on or after January 1, 2001, in accordance with Section 50075.1 of the California Government Code.

Some of the requirements of the Act are handled at the formation of the Special Tax District and others are handled through annual reports. This Section of this report intends to comply with Sections 50075.3 of the California Government Code that states:

“The chief fiscal officer of the issuing local agency shall file a report with its governing body no later than January 1, 2002, and at least once a year thereafter. The annual report shall contain both of the following:

1. The amount of funds collected and expended.
2. The status of any project required or authorized to be funded as identified in subdivision (a) of Sections 50075.1.”

The requirements of the Act apply to the Funds for the following:

The chief fiscal officer of the County shall annually file with the County Board of Supervisors a report regarding the amount of special parcel tax revenues collected and expended and the status of any project authorized to be funded with the special parcel tax revenues, as required by California Government Code Section 50075.3, as such law is amended from time to time.
